sound with -ay, -ai, -a_e,
and -ea.

Daily Reading + Seesaw
Challenge (due Tues.
next week)

Welcome Back!

Hope everyone had a wonderful Thanksgiving week filled with friends, family, and delicious food! Thank you all for attending conferences and taking such an interest in what we do in the classroom. It's so nice to have the chance to sit with each of you and discuss your child's progress. And to those of you who donated and/or helped provide the treats in the teachers' lounge during conferences, THANK YOU. That was above and beyond and so appreciated.

Money Matters

Before break, we worked hard on telling time to the 5 minutes and some of the students are even comfortable telling time to the minute. To have some fun this week with money, counting coins & dollars, and adding items from a menu, we'll use a take-out menu during math groups to 'order' food, add up the total, and make sure we have enough money to buy it all. Should be fun!

I am so appreciative of this class and the great strides the kids are making! Proud teacher :) ~ Ms. Boyesen
